Retractable / Recoilable Security Cables

These cables keep small devices and electronic equipment where they belong, while reducing the clutter of dangling cables.

The recoilable steel cables are vinyl-coated to 1/16" thick, in 3-ft lengths. You can attach any of the tabs and ends to the securing end of the cable, depending on how you need to secure your property.

The different part numbers for the retractable cables refer to various options for anchoring the retractor device to your shelves or furniture.

To specify a securing tab or end, you add the securing end or tab Part # to the retractable cable number.

The total price is the retractable cable price plus the price of the tab or end.

A retractable cable with self-adhesive anchor (RC3A) and a large adhesive tab (BA) is # BARC3A @ \$9.45

Remote Control and Loss Prevention Security Cables

These cables keep small devices and electronic equipment where they belong, protecting you from problems caused by lost and stolen components.

The coiled security cables are 1/16" steel, vinyl-coated to 1/8" thick, in various lengths listed below. You can attach any of the tabs and ends to each end of the cable, depending on how you need to secure your property.

To specify your cable you add one cable tab or end to the cable size, then add the other cable tab or end. You can use any of the tabs or ends on both ends of the cable. The price is the cable price plus the price of the two tabs or ends.

A 5 ft coiled cable with a small tab on one end and a loop on the other end is part # TCC5LP @ \$4.50

Coiled Cables - 1/16" cable black nylon coated to 1/8" are available in the following lengths:

CC2	<u>COILED CABLE 2-FT</u>	\$2.00	2" COILED	working range is just over 1.5 ft
